MAGYAR TUDOMÁNY ÉVE 2025/2026

CONFERENCE INVITATION

The University of Sopron
Alexandre Lamfalussy Faculty of Economics
and "For the Higher Education in Sopron Foundation"

are organising an International Scientific Conference entitled

"SUSTAINABLE FUTURES FOR ECONOMY AND SOCIETY"

as a joint event of the Hungarian Science Festival.

Conference Date: 5 November 2026

Abstracts are invited for oral presentations and posters on the following topics:

- Sustainability transition, green transition, digital transformation;
- Sustainable economy and artificial intelligence;
- Natural resources, green economy, circular economy, bioeconomy;
- Environmental economics, ecological economics, organic farming;
- Sustainable economy and management;
- Financial and accounting issues in sustainable economic decisions;
- Tourism and marketing, sustainable tourism;
- Global and regional aspects of sustainable development;
- Social challenges and innovations in sustainable development;
- Methodological challenges of sustainable development.

Official languages of the conference: English, German and Hungarian

We are organising our conference in the hope of meeting you in person, while also offering the possibility of online participation.

All interested persons are welcome to attend our conference.

The event is public and open to the press.
Photos, audio and video recordings will be made at the conference.
